

To Whom It May Concern,

REFERENCE: Melissa Yuri Campos Imai

I am pleased to write this letter of recommendation for Melissa Yuri Campos Imai and her accomplishments as a Research Intern for Ecospecifier from 13th January to 19th February 2015. As Technical Director for Ecospecifier I had the distinct pleasure of working with and overseeing Melissa directly, on a variety of investigative research, Ecospecifier product Verification, Global GreenTag Certification and administrative initiatives for the 6 weeks (3 days per week) that Melissa interned at our organization.

Melissa shows ability and willingness to learn as evidenced by her timely and successful completion of projects, tasks and duties whilst working at Ecospecifier Global.

Melissa is able to work effectively with others to achieve team goals and was able to contribute to the team, build a rapport and gain respect within the team.

Melissa has the capacity to work independently, self identifying priorities. She is organized and managed effectively to achieve project goals and sought feedback when required.

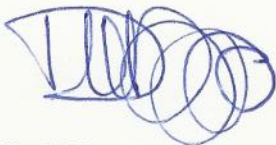

Additionally Melissa has shown discipline skills and knowledge. She has the ability to apply and adapt relevant knowledge and skills to solve work related problems and effectively use relevant software packages such as MS Office. She also has the ability to effectively and responsibly locate, evaluate and manage information.

Melissa participated in professional communication in a variety of contexts (e.g. written, verbal, formal and informal). Intern completed new and challenging projects at a professional level.

I am therefore happy to recommend Melissa Yuri Campos Imai due to her professionalism, dedication and capability. Melissa will be an asset to any team/ business.

If you have any questions or require any further information, please contact me on 0418 232 827.

Yours Sincerely,
Ecospecifier Pty Ltd, *per*
